## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claim 1-11, drawn to a plant container, classified in class 47, subclass 79.
- II. Claim 12-16, drawn to converting a plant container to a fountain classified in class 239, subclass 17.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the planter container of invention I maybe filled with some type of artificial medium, e.g. glass rocks, and have silk/artificial flowers placed therein.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
